New Adkins DTF Inline Mini Pro 600 & 900

Your versatile,
space saving
curing solution for
all roll-to-roll DTF
production
environments

New-look design, built to achieve high throughput with an extremely compact footprint

RRP:

600 - €3995 / £3495

900 - €5395 / £4695

- Capable of handling DTF film upto 600 or 900mm
- Depth of less than 100cm, over 30% more compact than earlier models
- Improved automatic powder recirculation
- Pre-shutdown mode for simpler maintenance and improved reliability

- Low operating power consumption for reduced energy costs
- Single door accesible with folding pre-heat and detachable fan bar
- Built-in three layer filtration and extraction for safer operation
- Reliably powder, cure & filter at speeds up to 20 l/m per hour (variables depending)

- New RGB-programmable integrated corner warning lights
- Guide scale on both film entry and exit for perfect film alignment
- Compatible with industry leading printer brands
- Reassuring heavy-duty build quality associated with Adkins products

ADKINS

Practical Usable Thoughtful

Our development team have worked with and listened to end users as well as dealers' sales and technical staff to implement innovative changes to further improve the experience using Adkins DTF Inline machines.

Pre-shutdown mode	1	• Extract remaining vapour • Reduce remaining glycol in the machine • Return powder to hopper • Reduce powder clumping caused by moisture
Automatic powder recirculation	2	• Dusting bar powder spread • Return corkscrew with periodic reverse function • Heated powder return and powder hopper for moisture control
Depth less than 100cm (30% less vs Compact models) when operating	3	• Fold out pre-heat and clip off fan bar to fit sideways through standard doors • Curved belt allowing curing at 20l/m per hour
Additional usability features	4	• Guide scales for film alignment • On-screen auto mode conditions • Oil collection gauge

ADKINS

Real world print testing

Our team has decades of experience in selling, installing and supporting Epson, Mimaki and Roland printers.

This has proven invaluable when developing our DTF curing solutions and we perform detailed, real world print testing with all three brands to ensure optimum performance and results.

Because we work with these machines daily, it also ensures that we provide the best technical support available to our dealers that are also working with these brands.

Mimaki

Roland®

Technical Specification (600/900)*

Power Consumption:	1.7kw /1.9kw (average)
Power Supply:	220-240 Volts AC
Socket Requirement:	Standard Domestic Plug (EU-16A / UK-13A)
Circuit Breaker:	15A
Net Weight:	172KG / 203KG
Machine Size:	98(w) x 94(h) x 98(d) cm / 126(w) x 94(h) x 98(d) cm
Smallest Machine Depth:	75cm (without brackets) or 85cm (with brackets)
Gross Weight:	255KG / 285KG
Package Size:	103(w) x 115(h) x 92(d) cm / 135(w) x 115(h) x 92(d) cm
Suggested Minimum	
Workable Area:	156(w) x 148(h) x 117(d) cm / 186(w) x 148(h) x 117(d) cm
Max Media Size:	60cm / 90cm Wide
Heating:	3 x Top / 4 x Bottom Elements
Powder Collection:	Automatic Powder Recirculation
Air Purifier:	In-Built Filtration And Extraction System
Oil Removal:	Sealed Oil Collection And Drainage Tap With Visible Oil Guage

Online support for you and your customers

Our website at adkinsmachines.com is rich in resources to support Adkins users and dealers

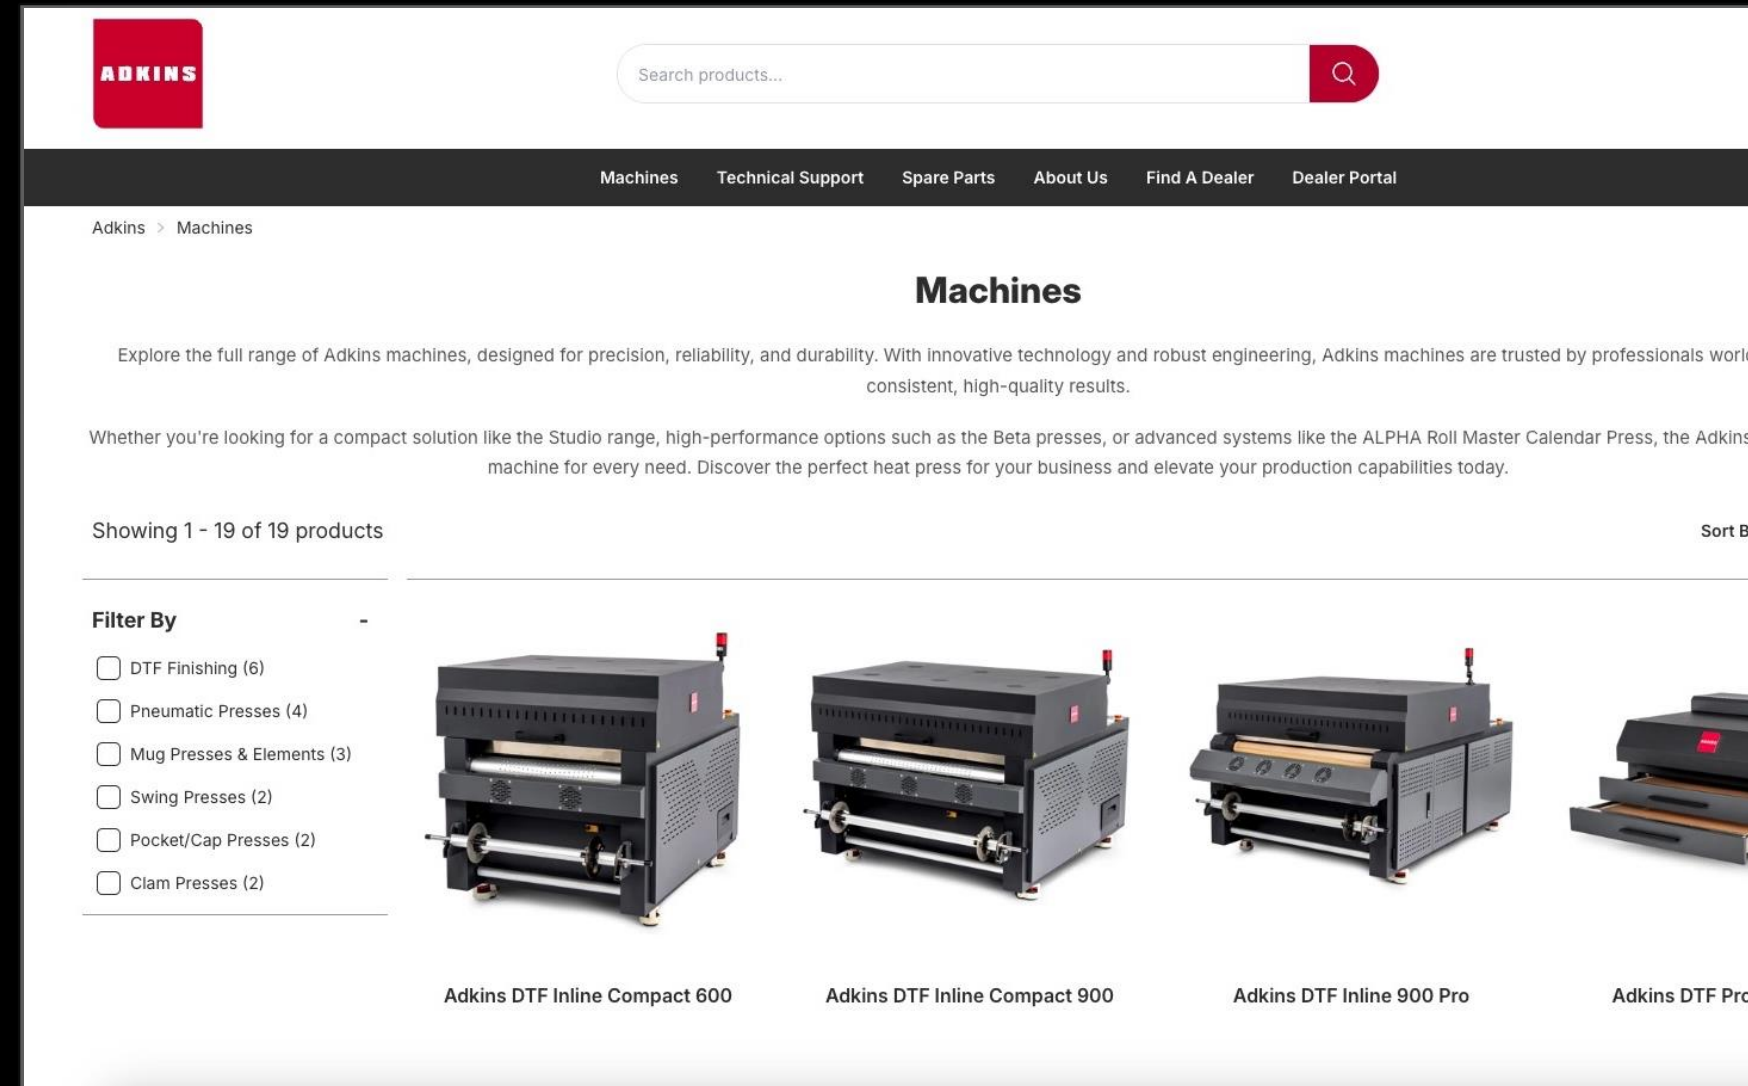

Every machine in-depth

Detailed specifications

- User Manuals
- Specification Sheets
- Quality web-ready photography
- Videos

Technical Support Resources

- Articles for Users
- Maintenance videos
- Raise a support case
- Spare parts catalogue

Dealer Support Portal

Our dedicated resource for supporting, marketing and servicing Adkins products.

- Photography / Videos
- Brand guidelines
- Artwork
- Technical resources
- Training
- Warranty registration

Dealers are also listed in our 'Find A Dealer' Directory.

ADKINS

ADKINS

A UK brand with EU presence

Available directly from Amsterdam

We have partnered with LGI Netherlands BV for our EU warehouse which aids the distribution of machines, media and parts and products for our European dealers.
Charterhouse Holdings PLC also has a European fiscal entity with a Dutch VAT number so as to facilitate easier trade with our EU dealer channel and partners.

Benefits for EU Adkins dealers

- Reduction/removal of current duty and import fees
- Faster delivery/collection times
- Less paperwork and reduced customs involvement

Thank you!
